This being interpreted by Pierre Le Clerc, the hall-breed interpreter, the President replied, that he was very glad to mere the ared children from the factors of the control of the contr

the sky.

Col Elliott is much respected by the tribe, for his services in their behalf. He has considered their interests, and taken great pains to have their claims and their peculiarly hard case fairly presented before the government. We are sure that Col. Medill will give their cause the most attentive consideration, and that the President will co-operate in any thing to the indemnification of these people for their sacrifices to the United States.

BALTIMORE, Oct. 31, 0845. Effect of the Foreign News-The Rape Trial-Pragress of the Liverpool Packet Line-Swiss Bell Ringers-The Delcy Concert-Markets, &c. The news by the Great Western, as will be seen by

my report of the markets, has had quite an unsettling tendency in this city. Our dealers are all resting on their oars for the arrival of the Hibernia at Boston, which must be along in a day or two.

The trial of Edward P. Roberts, for a rape on Marga-

retta Ehrman, is still progressing, and the lawyers are hammering away at the character of the poor girl, who is to be further outraged and abused to clear a set of graceless scamps, each one of whom have partly consed their guilt. Even if they succeed in traducing

graceless scamps, each one of whom have partly confessed their guilt. Even if they succeed in traducing her character, according to my notion of law, it does not affect their guilt or innocence, as it is a crime that could be committed on the frailest creature in the human family. Let her be what she may, their guilt is the same, for they seized her in the open street, gaged her and forcibly outraged ner person, not knnwing or caring who she was. In all the annals of crime of this character, I have never heard of a more outrageous case.

The evidence brought before the jury yesterday was of the blackest and most unmitigated character; still there is little or no sympathy for the girl, because forsooth she is a German. She behaves herself with great propriety, whilst the prisoners exhibit a hardinood and indifference which proves them not only guilty, but that the penitentiary is the most suitable place for them.

The movement in favar of the establishment of a line of packets between Baltimore and Liverpool has been revived with considerable spirit, and there is now but little if any doubt of its success. The amount of money already subscribed for the object is over \$60,000, and it is expected to reach \$100,000 in the course of a few days. The proposition to establish lines of packets between this city and Mobile, and Wilmington, N. C., has also been again taken up. A meeting was held a few evenings since, and two committees of six appointed to wait on our citizens and receive subscriptions towards the establishment of both lines in contemplation.

The Swiss Bell Ringers were again greeted with an overflowing house last night, and Miss Caroline Haffert, the vocalist, was received with great favor.

The Delcy Concert at Calvert Hall last night was not so well attended as was expected, though they had quite respectable house.

The Market's.—The news by the Great Western has left the market for breadstuffs as unsettled as it found it, having only had the effect of advancing prices beyond the extent at which export

encell this to called for. Besides we are dubious about Dickinson, and have not the fullest reliance in Dir as a free trader. If fact the store of the component of glory, and the local at the results of a disorganization upon the issue of tearing the fabric down, and rebuilding it on the free-trade platform.

We expect, in a day or, and have a right to expect, that the Ching will give us leader on the suppose of the President is going to recommend. We have the component of the president is going to recommend. We have to the suppose of the component parts of the mean the state of the there hardes to swamp him upon this question, as their leader, Mr. Van Buren, was awamped on the Texas annexation; and we apprehend that Colonel Pold dreads the one as much as the Great Texas annexation; and we apprehend that Colonel Pold dreads the one as much as the Great Texas annexation; and we apprehend that Colonel Pold dreads the one as much as the Great Texas annexation; and we apprehend that Colonel Pold dreads the one as much as the Great Texas annexation; and we apprehend that Colonel Pold dreads the one as much as the Great Texas annexation; and we apprehend that Colonel Pold dreads the one as much as the Great Texas annexation; and we apprehend that Colonel Pold dreads the one as much as the Great Texas annexation; and we apprehend that Colonel Pold dreads the one as much as the Great Texas annexation; and we apprehend that Colonel Pold dreads the one as much as the Great Texas annexation; and we apprehend that Colonel Pold dreads the one as much as the Great Texas annexation; and the present of the texas annexation; and the same present that the present of the texas annexation; and the same present that the present of the texas annexation; and the same present that the present of the form of the president.

To-day, by appointment, the delegation of Pottawatamie lands as the part of the president of the texas annexation present that the president of the president of the texas annexation present that the president of the

The steamer Hibernia's accounts, to 3d inst. were received on Monday, 20th inst. the decline of onc-eighth of a penny per pound at Liverpool, had a still further depressing influence here, and sales were made at lower rates. Holders have generally maintained a firm position under the last accounts, and sup-lied the market sparingly, exacting full prices, and a moderate demand had the effect of again raising our rates for a few days, so that previous to the arrival of the steemer Great Western, on Tuesday, 25th inst. prices were as high as on the 15th inst.; the accounts of a continued dull market, brought out by this vessel, has had the effect of suspending the limited operations in progress, and our market is in that state that any desire evinced to make sales would produce an immediate decline, and is sustained at our quotations, barely by the operations of spinners, and the very reduced state of our stock, which is now at a lower ebb than it has been for several years. In regard to the new crop, it will suffice to say, that the picking season has been all that planters could desire; and as yet, no authenticated accounts of a killing frost in the cotton growing section have been received here. Of course, estimates at this period of the season must pertake of the character of guesses, but we notice a total disappearance of short crop accounts, and well informed persons are now placing the figures at not less than 2,400,000 bales, excluding the receipts of Texas. The sales for the week ending 15th inst. *5,000 bales; isnee, to date, 2,000 bales. The market closed quiet last evening.

The receipts at this port, since the 1st inst. have been 9,570 bales; the exports for the same period, 21,600 bales, taken by spinners, 8,000 bales; taken on speculation, 7,060 bales. The movements of this staple this season, compared with the two previous, have been as follows:

Corn Trade,

ready subscribed for the object is over \$60,000, and it is expected to reach \$100,000 in the course of a few days. The proposition to establish lines of packets between this city and slobile, and Wildington, N. C., has also been spans taken up. A meeting was held a few evening citizens and receive suite of its appointed to wait on criticens and receive suite of its appointed to wait on a criticens and receive suite of its appointed to wait on a criticens and receive suites of its appointed to wait on a criticens and receives the receive for the ment of both lines in contemplation.

The Swiss Bell Ringers were again greeted with an overflowing house last night, and Miss Caroline Hiffert, the vocalist, was received with great favor.

The Delcy Concert at Calvert Hall last night was not so well attended as was expected, though they had use a subscription of the last as the subscription. The demand for some days has been confined to one demand, and the market quiet, with sales to-day at the self-of advancing prices beyond the search of the

ties that for the belience of the season high relices will be the under of the day. These, consequently are not disposed to sell much under yesterday's quotations. We have heard of some sales to-day as low as \$5,50, but the parcels were small and the brands inferior. A fair quotation is \$5,62125,82, but the sales are light and the market without animation. We are informed that there are some eastern men in the market, but they are not yet prepared to buy. There is an immense amount of flour in the basin to-day, estimated as high as 25 000 barrels.

BUFFALO, Oct. 29.—There is a little better feeling in the market to-day, although the price of freight still keeps most buyers out of market. We hear of the sale of 2000 bbls. Michigan and Ohio flour, and 500 bbls. on straight Michigan brand, at \$5 31, deliverable in Albany. An invoice of Monroe wheat, received per the Cleopatra (1300 bushels) sold at 35 cents, and 4,000 bushels Milan, in store, were disposed of onterms not made public.

lam, in store, were disposed of onterms not made public.

American Provisions.

Butter—This article, within the past few days, has been almost a drug upon the market; immense quantities arriving every hour, in entire boat loads, and prices have experienced a decline since our last quotations—Orange county rates now at 19 a 21 dents; State prime, 17 a 18; medium, 14 a 18; common. 10 a 11. Cheese has had a steady advance since the arrival of the last steamer, and is exciting considerable attention, both here and in the country; large lots arrive daily, and are taken freely from the boats, at good prices, principally for the European market—we quote to-day for western, in casks, 74 cents; in hoxes, 72 a 8; eastern ranges high—Connecticut, English dairy, 10 a 104; common, 83 a 83. We saw some of this English dairy in the store of one of the large dealers in this city, and have no hesitation in pronouncing it the first cheese made in this country; it is handsomely put up, encased in cloth, and of a beautiful rich yellow; it is manufactured in Litchfield county, Conn. Lard, in bbls. is about the same as last quotations—83 in kegs, 83 a 9 cents.

The transactions in Beef and Pork in Baltimore for three days, to the 29th inst., were quite limited. There had been a further decline in both Mess and Prime Pork, and we quote at \$13 15 a \$13 50 for Mess and \$10 75 a \$11 for Prime. Sales of Mess at \$13 25, and of Prime at \$10.75. Also sales of some small parcels of New Mess in half bris, at \$8. We quote new Mess Beef at \$10 50 a \$11. No. 1 \$550 a \$9, and Prime \$6.75 a \$7. Sales of 25 bris No. 1, at \$9, and of 30 bris do at \$8.75, and of Mess at \$10.50. Bacon is without change. The transactions had been chiefly in retail parcels. We quote Western, viz., Shoulders, 64 a 64; Sides, 74 a 74; assorted 74 a 8; and Hams 84 a 94 cents. according to size and quality. Sales of Shoulders at 65 cents, and of Sides at 7; a 7; cents, with an occasional sale of small parcels of choice quality at a shade higher. Sales of Hams at \$3 a 9 cent

Family Provision Market.

We have but little to add to our remarks of last week. The fall produce for the cityand markets is rapidly comingjin. We notice a great supply of wild game—so much so, that partridges, qual and woodcock are offered freely in Wall street, at very low rates, and few takers.

Rawal.

Commodore Jease D Ellictt still continues dangerously iff, and his left despaired of. The next mail may bring the intelligence of his demise.

Notice to Martiners.

IMPORTANT TO SHIP MAYERS.**—The following information may prove useful to commanders of vessels proceeding to load at Sourabaya, in Java:—During the northwest monsoon (from November to March) loaded ships for Europe generally sail eastwards through the Straits of Bain, and can load to about 18 feet before leaving Sourabaya Roads. During the southeast monsoon (from April to October) ships for Europe sail westwards and through Sunda Strait. They can only load to 15 a 15½ feet even at spring tides; those loading deeper have to complete their cargoes at Point Panka, which involves some deliva and faper to Japara, is infeated with a new description of pirates, who in prahus, manued with 12, 15 to 35 persons, attack and pilage the small native trading or fishing craft. It is said that there are large piratical vessels out at sea, by whom these small boats are sent out as pioneers.

EVENING AMUSEMENT.

I has been a source of general regret that so few opportunities offer, that prove sufficiently attractive to young men, to draw them from the haunts of dissipation and vice into which many fall, form a want of more rational and instructive amassement. An excellent opportunity now off rawhich possesses many attractions, also combaning health, pleasure and information, where gentlemen may resort, and pass magreeable hour at Dissrow's Riding School, 4 8 Bowery. Terms for a course of twive lessons, \$9. Subscribers are not required to attend regularly, only as may suit their convenience. The school will be open svery evening from 7 to 95, o'clock (Sandays excepted)

The School is open daily for Ladies, from 9 A.M. to 3 P.M. old im*rc

veneuce. The school will be open every evening from 7 to 9% o'clock (Sundays excepted).

The School is open daily for Ladies, from 9 A.M. to 3 P.M. o31 Im*rc

TO THE PUBLIC.

GOODYEAR VS. DAY—ONCE MORE.
I HAVE a short answer to make to the long statement over is closed and dismissed from Court, is still peading, and, at less further put off by Day, will be brought to a hearing next term on its merits—a hearing which has not been had for want of time.

I have examined the original minutes of the Court, and have a copy of the order in the above cause, which fully sustains what I be fore stated, and state again—that the merits of and cause remain to be tried as noon as the same can be heard upon a motion to be renewed at the pleasure of the complainant.

This is not the place to try the cause, although Day has been aiming in this by his advertisements and haudbills for a year past. As the quest on between Goodyear and Day will concome before the Court, and probably before a jury for investigation, it is improper to put before the public such statements and before the Court, and probably before a jury for investigation, it is improper to put before the public such statements and public of the complainant.

The public may form some estimate of Day's anxiety to drive this cuse to a hearing, by the fact that, although the deferd that had notice of he filing of this bill or or about the lefth of Augustlast, he did not even enter his appearance therein until the lith October inst.

I archer state that, at the expiration of nearly a month's time permitted to Day to out in affidavits in answer to the motion for injunction, Day saked for and obtained ten days further for that purpose, and this alone prevented the plaintiff from bringing the motion to a hearing, before the adjournment of court—and for the purpose, and this alone prevented the plaintiff from bringing the motion for the injunction in this case.

Caption of the order, dated Sept. 28, 1815.

Present, the Hon. Judges Nesson and Bet s.

MASTIC CEMENT

MASTIC CEMENT

MESSRS. J. & H. FRANSLAND and TROS. HARRIS

beg to recommend to the attention of all persons interested in buildings, their much approved Mastic, which is the most durable and beautiful composition ever, but invented for covering the exterior of dwelling houses or public buildings, in imitation of marble or atone; no time or weter caters also the composition of the mastic, which consists of boiled inneed oil, of a thick consistence, which, with the oxides and carbonate of lead, and other ingredients, forms a cement impervious to water, hard as a stone, and of great durability. Specimens may be seen and every information given on application to Mr. ULAS. H. MOUNTAIN, Architoct, 17 Wall street, N. York. a22 lim*r
